INDUSTRY INNOVATOR IN PRODUCT DESIGN

From Our Family To Yours

JR LIST
PRESIDENT

List Industries Inc. was founded in 1936 by Max. H. List, my grandfather, with the notion that customer satisfaction and product quality would be the basis for success.

His philosophy has been carried on for more than 80 years, through the efforts of my father, Herb List. Today we have become the industry leader. Looking back on the 40 years that I have been with List Industries, serving now as the company's President, I am proud to say that my grandfather's ingredients for success have given me the solid foundation needed to lead List Industries into the future.

Our journey began 80 years ago, when the first locker rolled out of the door of my grandfather's

factory in Chicago, IL, and it continues today, with the thousands of lockers manufactured daily in our Deerfield Beach, Apopka and Gainesville Florida locations. We are proud to be recognized as the industry leader, and as such, we remain committed to providing the highest quality lockers.

While the rest of the industry continues to flatter us by following our lead, our team continues working on new products and innovations to make sure that, as innovator and industry leader in product design and development, List Industries remains **America's Most Complete Locker Line[®]**.

Leading Innovation for over 80 years

Superior[®] Lockers, Cabinets, Shelving, & Gates, by List Industries Inc., are manufactured in our two modern, highly efficient, state-of-the-art facilities in Deerfield Beach and Apopka, Florida. We recently expanded capacity, making room for the installation of five million dollars' worth of computer-controlled fabricating, roll-forming and powder coat finishing systems to ensure consistent, quality workmanship.

Our top-of-the-line, automatic, numerically controlled, quick color change finishing system allows us to offer 24 standard designer powder coat applied colors with the highest quality and most durable paint finish in the industry.

From initial design to manufacture and finish, Superior[®] lockers are engineered using the most advanced computer technology to give you quality you can rely on.

The uniqueness of our Hollow-T framing system gives us the flexibility to custom design a locker to meet the specific requirements of your project. Our complete line of All-Star Sport Lockers offers you twelve standard

Turret Press

configurations per size, before adding options to further meet your needs All-Star Sport Lockers are the best steel sport locker available today. The addition of our Recruiter[™] wood and Phenolic Lockers insures a locker to meet your specific facility needs

This catalog depicts just a few of the endless design possibilities when choosing Superior fully-framed lockers; it also includes other product lines, all manufactured to the same high standards you have come to expect. We welcome the opportunity to work directly with you to custom design a locker room environment that is productive and attractive while remaining time and cost efficient.

Our team of designers, engineers and sales professionals is available to assist you every step of the way, from initial budget planning to final project closeout.

List Industries, Inc. leads the way in quality and customer service. From our corporate headquarters in Deerfield Beach, our three manufacturing plants in Florida, six strategically located regional distribution centers, seven regional sales offices located throughout the United States and our network of more than 300 authorized distributors nationwide, we provide the quality you demand, the timeliness you require and the service you deserve.

All Superior metal and plastic lockers are Greenguard Gold Certified.

Greenguard is an indoor air quality certification program for low emitting products and materials that evaluates over 75,000 chemicals, including volatile organic compounds, carcinogens, and reproductive toxins. Referenced in both the Collaborative for High Performance Schools (CHPS) and the Leadership for

Energy and Environment Design (LEED) Building Rating System, Greenguard Gold Certification establishes strict chemical emission standards for products intended for use in environments where children and others work, play or reside.

GALVANITE™ CORROSION RESISTANT SHEET STEEL

Ideal for use in high humidity areas, outdoor locations, near shower, pool areas and food industry facilities

GALVANITE™, is List Industries' trade marked name for lockers and cabinets manufactured with galvaneal sheet steel components and finished with an electrostatically applied high-grade powder coat finish. Galvanite and powder coat offer exceptional double protection against corrosion, even under the most adverse conditions. Tests indicate that galvaneal increases the estimated life cycle threefold.

What Is Galvaneal?

Galvaneal is the result of the combined processes of galvanizing (hot-dipped zinc coating) and annealing (heat treatment). Galvaneal does not flake off its galvanized coating when formed, stamped, and bent. The very fine matte finish acts like a primer that easily adheres to paint. These characteristics make galvanealed sheet steel ideal for steel lockers in high humidity, corrosion prone areas.

GALVANNEAL SHEET STEEL

with our powder coat finish after a 336 hour salt spray test.

COMMON COLD ROLLED SHEET STEEL

with a 1 mil dry film build paint thickness after a 336 hour salt spray test.

Made in America Since 1936

Deerfield Beach, Florida Headquarters

SUPERIOR
AMERICA'S MOST COMPLETE LOCKER LINE

FULLY-FRAMED ALL-WELDED LOCKERS

CONTINUOUS 16 GAUGE FLAT TOP

Optional slope top available

STANDARD SAFETY MINDED SELF-CLOSING TOP HINGED DOORS

Continuous hinge rods safely concealed.
Standard on doors 12" high and under.

TWO TONE COLOR OPTION AT NO ADDITIONAL CHARGE

GALVANNEAL shelves and bottom for added corrosion resistance.

1/2" MESH VENTILATED SIDES

13 gauge flattened expanded metal protected and fully-framed by our unique structured roll formed Hollow-T framing system. Fully framed solid sides are optional

FULL HEIGHT DOOR STIFFENER

Standard for all Doors 20" high and above that are over 15" wide and all marquis lockers. Available as an option on other doors.

14 GAUGE GALVANNEAL channels both front and back provide corrosion resistance at locker bottom

WHAT A DIFFERENCE

Our 13 gauge 3-1/2" 7-Knuckle hinge vs the industry's standard 2" KD locker hinge

THE INDUSTRY'S, BEST LATCH

Our rugged 11 gauge MIG welded latch hook with large riveted bumper vs the industry common KD style latch

SUPERIOR HINGES

SUPERIOR LATCHES

THE STRUCTURAL INTEGRITY OF OUR FULLY-FRAMED ALL-WELDED LOCKERS

6-Bend Structural roll-formed vertical framing member

14 gauge cold rolled horizontal channel base frame members run continuous across full width of multiple column unit at front and back.

SUPERIOR® fully-framed locker bottoms are a full 2-3/4" above finished floor eliminating the need for and additional base

1 Structural roll formed 16 gauge Hollow-T tubular frame members run top to bottom at all four corners of each locker column.

2 16 gauge double channel horizontal frame members run front to back at top and bottom.

3 14 gauge galvaneal horizontal channel base frame members, front and back, run continuous across the full width of a multiple column locker unit. Channels are galvaneal for added corrosion resistance

4 16 gauge galvaneal bottom & intermediate shelves are corrosion resistant and locked into frame at all four corners and securely MIG welded.

5 Heavy-duty 13 gauge 7 knuckle 3-1/2" hinges are the industry's strongest hinge

6 11 gauge MIG welded latch hooks with large riveted-on bumper, far exceeding industries standards

7 18 gauge solid back is continuous across multiple locker columns

8 13 gauge 1/2" diamond pattern, flattened expanded metal sides are enclosed on all four sides by the structural Hollow-T framing system

9 14 gauge doors are available in diamond perforated, solid, louvered or mini louvered

EXPANDED METAL

STRENGTH: 84% more steel ensures a stronger more rigid unit than 3/4" mesh

SAFETY 1/2" mesh design keeps fingers out

SECURITY: Reduces risk of loss, theft and content damage

SUPERIOR® LOCKERS LOCK BARS ARE INSTALLED AFTER THE DOORS ARE PAINTED

SUPERIOR® LOCK CHANNEL

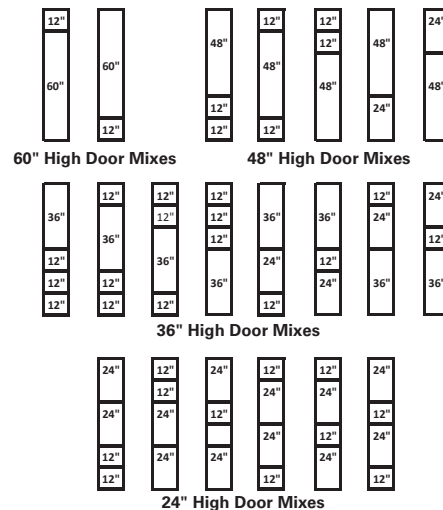

ROLL FORMED G90 HOT DIPPED GALVANIZED LOCK BARS are installed after the doors are painted to ensure complete paint coverage, corrosion resistance and smoother lock bar operation. Others use standard steel and/or install the lock channel before paint trapping moisture in, preventing proper paint coverage leading to corrosion problems.

Dupont® Supertough® nylon latches are made in the USA and are installed after paint to insure a lifetime of superior performance. Use of lower quality plastics and/or installing before paint can cause brittleness and poor performance.

CUSTOMIZE TO MEET YOUR NEEDS

- ✓ No Costly Engineering
- ✓ No Added Lead-Time
- ✓ No Set-Up Charges
- ✓ No Problem!

Our unique Hollow-T framing system allows you to mix and match doors to create the perfect storage solution.

SUPERIOR
AMERICA'S MOST COMPLETE LOCKER LINE

The Sport Locker That Sets The Standard All Others Must Follow...

Player Tested and Game Ready!

The All-Star sport locker's quality, functionality and durability raised the bar for sport lockers. All-Star lockers feature our exclusive Hollow-T framing system, with 1/2" 13 gauge flattened expanded metal sides for maximum ventilation, safety and rigidity. Interlocking body components creates a functional yet sturdy sports locker, guaranteed to last a lifetime. The versatility of our Hollow-T framing system allows you to customize a locker to your specific requirements.

- All MIG welded construction
- Powder coated and baked body construction
- 16 gauge Hollow-T tubular sections & channel frame.
- 14 gauge cold rolled steel locker base
- 13 gauge cold rolled steel 1/2" flattened expanded metal vertical side panels .
- Standard hat shelf and 2 single prong wall hooks, 1 double prong ceiling hook.

All-Star Lockers feature **SafeMesh84™**, the industry's strongest and safest expanded metal.

See page 88 for color selections

OUR MOST POPULAR CONFIGURATION

Open top shelf with under hang hooks

Upper wallet security box with stainless steel coat rod

12" wide security box with stainless steel coat rod

Full width security box with stainless steel coat rod

Wallet and 12" wide Security boxes have single-point thru-the-door projecting Antimicrobial finger pulls for protection against bacteria.

Lower Options

Open lower

Reinforced seat

Foot locker with reinforced seat

Underside of foot locker seat is reinforced to support today's athlete

Additional Options

Shoulder pad rack

Shoulder pad rack with helmet support

2" or 3" Padded seat cushion

A POPULAR CONFIGURATION

Shown here with full width security compartment, stainless steel coat rod and lower shelf/seat. Both security compartment sides are ventilated. See back cover for color selections.

LOCKER SIZES

Widths 18", 24", 30", 33", 36"
 Depths 12", 16", 18", 22"
 Nominal Heights 60", 72", 84"

Note:

Actual locker column height is 2-3/4" over nominal column heights shown for 60" and 72" models. 84" high models will be 84" actual.

• All-Star lockers will ship in multiple column units up to 60" wide to meet individual jobsite conditions.

FEATURES

BODY CONSTRUCTION: All MIG welded construction.

FRAME: 16 gauge Hollow-T tubular sections running top-to-bottom at all 4 corners of each locker column. 16 gauge double channel run front to back at both the top and bottom of each locker side

VERTICAL SIDE PANELS: 13 gauge cold rolled steel 1/2" flattened expanded metal framed by Hollow-T tubular framing system.

LOCKER BASE: 14 gauge cold rolled steel channel running full width of welded locker unit at both front and back

OPTIONAL LOWER SEAT/SHELF: Shall be 16 gauge 1" with a reinforcing bar welded to lower front for rigidity.

OPTIONAL FOOT LOCKER: 14 gauge cold rolled steel with Security-Plus ventilation, seat opens for storage.

STANDARD: hat shelf and two single prong wall hooks, one double prong ceiling hook.

ATHLETIC TEAM FULLY-FRAMED ALL-WELDED LOCKERS

Designed With Today's Athlete In Mind

VARSITY SINGLE TIER

Highly recommended for varsity team rooms, engineered to withstand extreme abuse.

JR. VARSITY DOUBLE TIER

Ideal when budget and/or space are limited. Double tier lockers can be used in team rooms as well as in P.E. rooms.

INTRAMURAL TRIPLE TIER

Ideal when space and/or funds are limited. The opening height allows clothing to hang on hooks allowing better ventilation.

STANDARD ATHLETIC TEAM FULLY-FRAMED ALL-WELDED LOCKERS

VARSITY SINGLE TIER

Widths: 9", 12", 15", 18", 24"
 Depths: 12", 16", 18", 22"

P.E. SERIES FULLY-FRAMED ALL-WELDED LOCKERS

**A Cost Effective Game Changer
MAXIMIZE SPACE WITH THE 9E UNIT (6:1 RATIO)**

This unit is a favorite among architects, coaches and physical education instructors. Superior Class 9E lockers accommodate 12 students in a compact three linear feet of space, replacing the typical "626" combination with the

popular 6:1 Ratio. Lockers where PE clothing is stored are a full 18" wide x 8" high. Wardrobe lockers for hanging school clothing are 9" wide x 48" high. Standard Class 9E unit size is 36-3/8" wide x (12", 16", 18", 22") deep x 74-3/4" high actual.

No. 8D
(5:1 Ratio)

Doors are shown with optional padlock strike plates which protect finish from being marred by padlock.

No. 9E
(6:1 Ratio)

**THE EFFICIENT 8D UNIT
(5:1 RATIO)**

Superior Class 8D lockers are designed with the same premise as its big brother, the Class 9E. We have engineered the finest 5:1 ratio P.E. unit in the locker industry utilizing the same floor space as a standard "525" configuration. This locker is a nominal 64" high (66-3/4" actual height) as

opposed to 60". Lockers where PE clothing is stored are a full 18" wide x 8" high and the wardrobe lockers are 9" wide x 48" high. Standard Class 8D unit size is 36-3/8" wide x (12", 16", 18", 22") deep x 66-3/4" high actual

Typical Locker VS. Superior 9E & 8D Lockers

12" wide x 12" high

18" wide x 8" high

- Maximizes ventilation for clothing and shoes
- Increases shelf space by 50%
- Adds 12" in height to wardrobe opening
- One gym locker at unit bottom in lieu of two
- 3 latch points & 3 hinges per wardrobe door instead of 2

P.E. SERIES FULLY-FRAMED ALL-WELDED LOCKERS

No. 61 (6:1 Ratio)

No. 6A (7:1 Ratio)

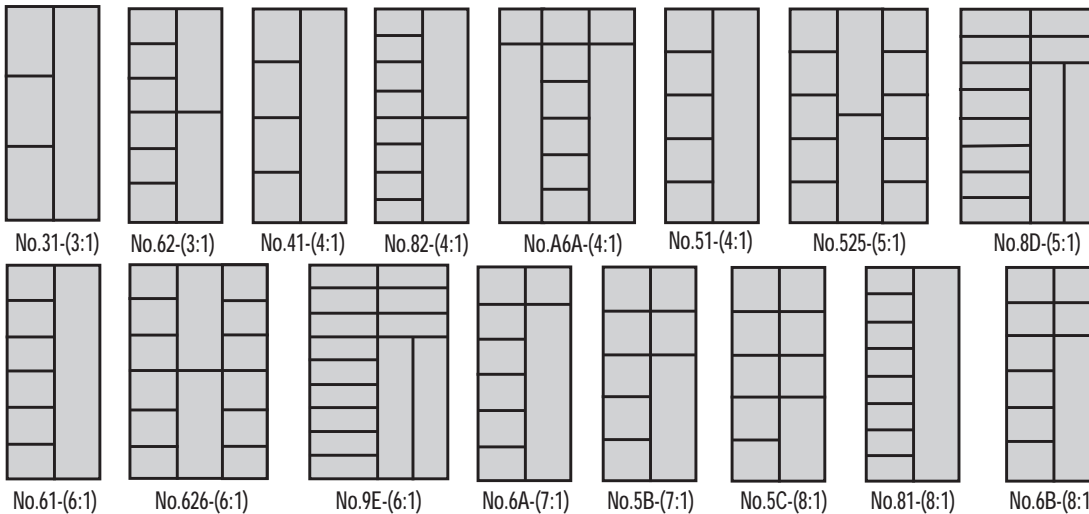

No. A6A (4:1 Ratio)

No. 51 (5:1 Ratio)

No. 525 (5:1 Ratio)

TYPICAL SUPERIOR P.E. LOCKER COMBINATIONS

The design flexibility of our all-welded athletic lockers allows us to mix and match wardrobe lockers with box lockers to meet any configuration and/or ratio your facility may demand. Please feel free to contact our Sales Manager at 1-800-776-1342. He will help you create an environment which will be both esthetically pleasing and functional.

UNIBODY ALL-WELDED CORRIDOR LOCKERS

WHAT IS UNIBODY ALL-WELDED?

- Superior unibody all-welded corridor lockers include our double vertical frame design adding strength, integrity, durability and visual appeal.
- First we start with prime grade cold rolled sheet steel. 16 gauge for all body components except backs which are 18 gauge. Doors are heavy 14 gauge.
- Sides are formed to be an integral part of the front vertical locker frame which locks into the bottom for precise alignment and added strength.
- We MIG weld an additional channel shaped vertical frame member between doors providing a continuous door strike at both the hinge and latch side of the door.

- The top and bottom are flanged downward at the front to form a 1-1/2" high channel shaped top and bottom horizontal frame member continuous across the multiple column unit up to 60" wide.
- The base is a full 1-1/2" high keeping locker contents away from moisture on the floor and/or wood/concrete base.
- Front-to-back channel stiffeners are welded into the base under each side panel providing a strong anchor bearing surface for installation and increasing overall unit strength.
- Horizontal tier dividers for double and triple tier models project through to the face of the locker forming a horizontal cross member between doors for maximum strength.
- Guaranteed in writing by our lifetime warranty.

THE CLASSMATE™ CORRIDOR LOCKERS

Our unique double frame, unibody all-welded design provides a durable locker with a classic appearance that is backed by our life-time warranty.

Sixteen-Person	72"	18"	12"	78" (with 6" legs)
4-Wide Wall Mount	48"	18"	12"	14-3/4"

SPECIALTY KD WARDROBE & BOX LOCKERS

Duplex & Two Person Lockers

DUPLEX

The most economical full length locker available, it conserves valuable floor space, yet provides ample height for hanging full length garments. Duplex lockers provide two completely private lockers in each frame. One hat shelf and two single hooks are standard in each wardrobe opening. Coat rods are optional for 18" and deeper models.

TWO-PERSON

Two-Person lockers provide ample storage space for two users in a 15" or 18" wide space. Upper box doors are controlled by command latches located in the corresponding lower compartment. Two single hooks per wardrobe opening are standard. Coat rods are optional for 18" and deeper.

STANDARD

Upper box door of Two-Person locker is opened from within user's wardrobe compartment

STANDARD

Deep-drawn 304 stainless steel recessed handle with multi-point gravity lift-type latching includes our Antimicrobial Recessed Handle Finger Lift Cover for protection against bacteria

STANDARD

12 gauge latch hook is welded to frame

STANDARD FOR BOX DOOR

16 gauge continuous piano hinge

FEATURES

BODY CONSTRUCTION: Knock down (KD) with 24 gauge solid body components.

DOORS: 16 gauge louvered doors, 18 gauge for 9" wide are standard. Security-Plus, Safety-View and diamond perforated door styles are available.

LATCHING: 12 gauge latch hooks MIG welded to frame. Gravity lift-type multi-point spring loaded latching:

- 3-point latching for openings 48" high and higher
- 2-point latching for openings 20" high thru 36" high

Lock Bars are fabricated from G90 galvanized steel and are installed into the door after paint.

FRAME: 16 gauge frame with 16 gauge horizontal cross member between doors on double and triple tier wardrobe lockers.

DOOR STRIKE: Continuous vertical door strike at both hinge and latch side.

HOOKS: 2-single hooks and 1-double hook is standard.

- 1- double hook only for triple tier 1-double
- 1-double & 1- single hook for 9" wide openings 30" and higher .

SHELVES: Hat shelf for single tier openings 60" and 72" high

QUIET & WHISPER QUIET KD WARDROBE LOCKERS

Our Silent Approach To Locker Design

Double Tier
1-Wide

STANDARD QUIET

Lockers are constructed just like our Classic K.D. lockers, except the door is furnished without louvers to limit air rush through the door, providing quiet operation. Perforations on upper and lower door flanges allow concealed ventilation.

DOOR FEATURES

Perforated top and bottom door flanges for all Standard Quiet and Whisper Quiet lockers allow for concealed ventilation

WHISPER QUIET

The die-formed sound deadening panel filled with acoustical material provide the quietest and most aesthetically appealing gravity latch locker.

STANDARD

Deep-drawn 304 stainless steel recessed handle with multi-point gravity lift-type latching includes our Antimicrobial Recessed Handle Finger Lift Cover for protection against bacteria

STANDARD

12 gauge latch hook is welded to frame

STANDARD

16 gauge continuous piano hinge

UPGRADES all body components to 16 gauge with 18 gauge back. Recommended when placing heavy items in lockers such as backpacks.

FEATURES

BODY CONSTRUCTION: Knock down (KD) 24 gauge solid body components

DOORS: 16 gauge plain doors (18 gauge for 9" wide), sound deadening panel for Whisper Quiet lockers only

FRAME: 16 gauge frame with 16 gauge horizontal cross member between doors on double and triple tier wardrobe lockers

HANDLE: Deep-drawn stainless steel recessed handle

DOOR STRIKE: Continuous vertical door strike at both hinge and latch side

HINGES: 16 gauge continuous piano type

LATCHING: 12 gauge latch hooks MIG welded to frame. Gravity lift-type multi-point spring loaded latching:

- 3-point latching for openings 48" high and higher
- 2-point latching for openings 20" high thru 36" high
- Isolated latching mechanism for Whisper Quiet only

Lock Bars are fabricated from G90 galvanized steel and are installed into the door after paint.

HOOKS: 2-single hooks and 1-double hook is standard.

- 1- double hook only for triple tier 1-double
- 1-double & 1- single hook for 9" wide openings 30" and higher

SHELVES: Hat shelf for single tier openings 60" and 72" high

SIZES: See page 34

NOTES: All production KD lockers are supplied without legs unless otherwise specified. Standard Quiet and Whisper Quiet lockers are available with plain doors only. Additional perforations/louvers in the door will increase decibel levels thus reducing the efficiency of our quiet design

HINGES: 16 gauge continuous piano type is standard. Heavy-duty 13 gauge 3-1/2" 7-knuckle hinges are available as an upgrade

HOOKS: 2-single hooks and 1-double hook is standard.

- 1- double hook only for triple tier 1-double
- 1-double & 1- single hook for 9" wide openings 30" and higher

SHELVES: Hat shelf for single tier openings 60" and 72" high

NOTES: All production KD lockers are supplied without legs unless otherwise specified.

AFFORDABILITY AND FUNCTIONALITY IN ONE LOCKER

HEAVY-DUTY VENTILATED (HDV) KD LOCKERS

HEAVY-DUTY VENTILATED (HDV) knock-down lockers are the perfect solution when budget restrictions prevent the use of fully-framed all-welded lockers.

PREMIER SERIES HDV LOCKERS include our 3" wide 18 gauge full height door stiffener welded to the inner door face providing a rigid torque-free door. A 1-1/2" wide stiffener will be furnished for 9" wide Premier Series Wardrobe and 12" wide Premier Series Box Locker doors.

MARQUIS SERIES HDV LOCKERS which include our deep-drawn seamless stainless steel recessed handle with single-point latching, and a 3" wide 18 gauge full height door stiffener spot welded to the inner door face and MIG welded to the hinge side as well as to the top and bottom door flanges providing a rigid torque-free door. A 1-1/2" wide stiffener will be furnished for 9" wide Marquis Series doors.

STANDARD + **ANTIMICROBIAL PROTECTION**

Deep-drawn 304 stainless steel recessed handle with multi-point gravity lift-type latching includes our Antimicrobial Recessed Handle Finger Lift Cover for protection against bacteria

STANDARD

12 gauge latch hook is welded to frame

STANDARD

16 gauge continuous piano hinge

STANDARD + **ANTIMICROBIAL PROTECTION**

Single-point thru-the-door projecting Antimicrobial finger pull for protection against bacteria with padlock hasp is standard for side hinged doors

FEATURES

BODY CONSTRUCTION: (Wardrobe & Box lockers): Knock down (KD) with 16 gauge solid top, bottom and intermediate shelves, 16 gauge diamond perforated sides, 18 gauge solid back

DOORS: 14 gauge diamond perforated doors are standard. Louvered, Security-Plus and plain door styles are available

FRAME: 16 gauge frame with 16 gauge horizontal cross member between doors on double and triple tier wardrobe lockers

HANDLE: Wardrobe Lockers (doors 20" and higher) - Deep-drawn seamless stainless steel recessed handle, Box lockers - Single-point thru-the-door antimicrobial finger pull padlock hasp

HINGES: 16 gauge continuous piano type

DOOR STRIKE: Continuous vertical door strike at both hinge and latch side

LATCHING: Gravity lift-type multi-point spring loaded latching:

- 3-point latching for openings 48" high and higher,
- 2 point latching for openings 20" high thru 36" high

Lock Bars are fabricated from G90 galvanized steel and are installed into the door after paint.

HOOKS: 2-single hooks and 1-double hook is standard.

- 1- double hook only for triple tier 1-double
- 1-double & 1- single hook for 9" wide openings 30" and higher
- Box lockers no hooks

SHELVES: 16 gauge hat shelf for single tier openings 60" and 72" high

NOTES: All production KD lockers are supplied without legs unless otherwise specified

KD

KD/Welded

KD/Welded

SPECIFICATIONS

1 - 6" Closed Front Base (KD lockers only): Shall be fabricated of 16 gauge cold rolled sheet steel flanged on all four sides for rigidity. Front bases include projecting tabs on side flanges designed to align with holes in front legs allowing front bases to be snapped into place requiring no additional fasteners. Side bases are to be included at all exposed ends and are bolted to front and rear legs. Finish to match lockers.

2 - 4" Continuous Z-Base (KD lockers only): Shall be fabricated from 16 gauge cold rolled sheet steel fabricated in 72" lengths, flanged at the top to form a 1-3/8" toe space and at the bottom allowing concealed fastening to the finished floor. Continuous Front Bases include holes for use with splice plates where bases are joined end-to-end. End Bases are to be included at all exposed ends. Where additional support is desired, End Bases may be substituted for splices at Continuous Front Base joints. Finish to match lockers.

3 - 20 gauge Individual Slope Top (KD lockers only): Not less than 20 gauge cold rolled sheet steel, 18 degree pitch, fabricated to be installed individually over each locker. Slope top is formed to include a full back. Individual Slope Tops are to be installed in addition to the locker flat top. End closures are to be provided at exposed ends. Finish to match lockers.

4 - 18 gauge Continuous Slope Top: Not less than 18 gauge cold rolled sheet steel, 18 degree pitch, in 72" lengths. A splice cover with concealed spring clip is to be used to cover joints where Continuous Slope Tops are joined end-to-end. To be installed in addition to the locker flat top with end closures for support. Finish to match lockers.

4 - 16 Gauge Continuous Slope Top: Not less than 16 gauge cold rolled sheet steel, 18 degree pitch, in 72" lengths. A splice cover with concealed spring clip is to be used to cover joints where Continuous Slope Tops are joined end-to-end. To be installed in addition to the locker flat top with end closures for support. Finish to match lockers.

5 - Recessed Trim: Fabricated of 16 gauge cold rolled sheet steel. 3" wide side trim shall be notched at the top and include a retainer to allow the 3" wide top trim to fit snugly into the side trim. Recess trim is designed to be used when the lockers are installed with the locker fronts flush with the top and side walls. The top and side trim will project 3/8" beyond the side and top walls and include return bends back to the walls. Finish to match lockers.

6 - Minimum Punched End Panel (KD lockers only): Shall be from 18 gauge cold rolled steel and formed to fit tightly over the universal side panel at exposed row ends. Holes are provided at perimeter for fastening to locker. Minimum Punched End Panels are designed to cover all fasteners other than those at the perimeter of the panel. Finish to match lockers. Provide at all exposed ends.

7 - Boxed End Panel: Shall be "Boxed" type formed from 16 gauge cold rolled steel with 1" O.D. double bends on sides and a single bend at top and bottom with no exposed holes or bolts. If lockers have slope tops, end panels must be formed with slope at top to cover the ends of the slope tops. Finish to match lockers. Provide at all exposed ends.

8 - Fillers: Provide where indicated, of not less than 16 gauge cold rolled sheet steel, factory fabricated and finished to match lockers.

SUPERIOR
AMERICA'S MOST COMPLETE LOCKER LINE

SUPERIOR® BULK STORAGE LOCKERS

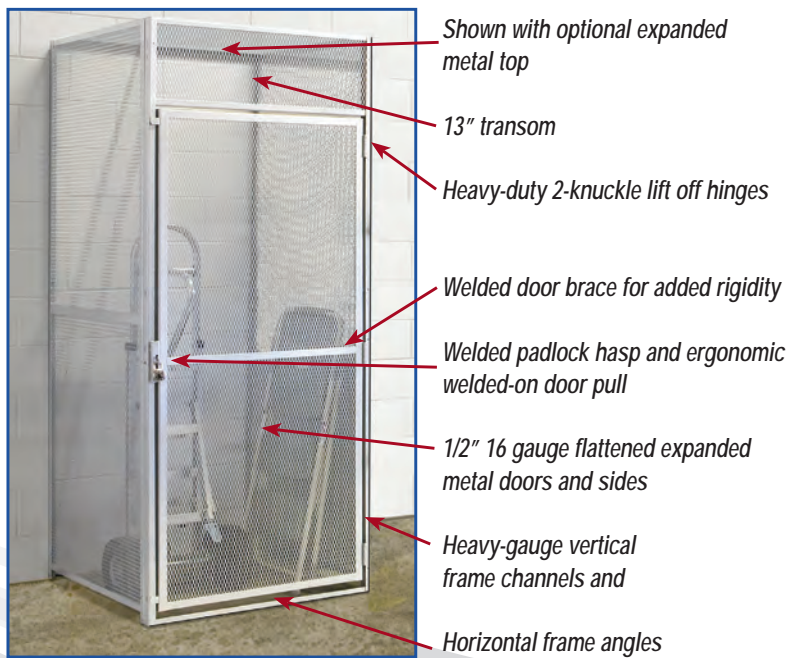

Superior® Bulk Storage Lockers are the most economical way to provide safe and secure storage in virtually any facility.

Choose from in-stock or custom sizes to fit your needs.

- ✓ **Single & Double Tier**
- ✓ **Economical**
- ✓ **Secure**
- ✓ **Durable**
- ✓ **Fast & Easy Installation**
- ✓ **Low Life-Cycle Cost**
- ✓ **Attractive**
- ✓ **User Friendly**

Single Tier Starter Unit

- Shown with optional expanded metal top
- 13" transom
- Heavy-duty 2-knuckle lift off hinges
- Welded door brace for added rigidity
- Welded padlock hasp and ergonomic welded-on door pull
- 1/2" 16 gauge flattened expanded metal doors and sides
- Heavy-gauge vertical frame channels and
- Horizontal frame angles

Optional 16 gauge 1/2" expanded metal top makes for a very secure structure adding rigidity and ensuring a higher level of protection from theft

The Heavy-Duty 2-knuckle lift off hinges and door stops are welded to the frame for extra strength and security of contents, imparting a more finished and attractive appearance to the unit.

Door handles are formed from one solid piece of steel and are welded to the frame for extra strength

711
DARK GRAY (HG)

NOTE: In the interest of safety, all lockers must be securely anchored to the floor and/or wall.

SUPERIOR® BULK STORAGE LOCKERS

Custom Installations

Superior® Bulk Storage Lockers' unique construction provides for a simple, easy way of handling interference from overhead pipes and/or ducts.

Showing cut out (with repair angles) to allow for interfering duct.

View of pipe through transom (or divider) with repair angle.

Repair Angles

REPAIR ANGLE 16 gauge 36" long repair angle is pre-punched on 2" centers to "heal" cuts in dividers or transom. Two bolts and clips are included with each angle.

Blue part number denotes in stock sizes. Custom sizes are also available.

BULK STORAGE LOCKER STOCK SIZES

Width 36" 48"
Depths 36" 48" 60"
Height 90"

Standard Sizes available in single and double tier configurations.

***Custom sizes are also available.**

OPTIONS

TOPS are recommended for situations where the ceiling height is 8'-6" or more when using standard 7'-6" high component modules.

SHELVES are used as dividers between top and bottom openings of double tier lockers. May also be used in single tier lockers for additional floor space and may be shorter than depth of locker to provide space for long items.

BACKS are required for back-to-back installations or where a single row is set away from a wall.

BOTTOMS are recommended for use on all single or double tier lockers if dampness prevails.

SUPERIOR® PORTABLE GATES

SUPERIOR® PORTABLE GATES ARE IDEAL FOR:

- SCHOOLS
- SHOPPING MALLS
- RECREATION CENTERS
- FACTORIES
- LIBRARIES
- HOSPITALS
- OFFICE BUILDINGS
- FINANCIAL INSTITUTIONS
- THEATERS
- MUSEUMS

SECURITY • TRAFFIC CONTROL • PORTABILITY

- In Stock for shipment within 5 days of receipt of order
- Quick and easy installation. Install between two walls instantly without anchors to walls or floor
- Simplified, patented pressure lock system
- Floor anchors are not required but are available for special installations
- Compact, fold-up size and heavy duty swivel casters make moving and storage easy
- Plated finish
- Padlock hasp is standard
- Cylinder locks are available for additional security
- Two or more gates can be joined together for large expanse

EXCLUSIVE SUPERIOR® PRESSURE LOCK

SYSTEM WORKS LIKE THIS:

1. Raise unit retainer channel to vertical position and secure
2. Extend gate until rubber bumpers touch both walls
3. Lower the male lock channel (with pin) until it rests on carriage channels within guides and locking bracket
4. Lower female lock channel (with adjustment holes) until it rests within the male lock channel with pin. Pin need not engage a hole in female lock channel
5. Raise both channels until pin engages the hole immediately to the right. Applying moderate pressure, push both channels down until they rest within guides and locking bracket. Lock in position

Five sizes to accommodate 3'-6" wide to 18'-0" wide conditions.

Connect multiple gates together for wider applications.

Closed units: Starter units include two beaded front posts, two angle back posts, one back panel assembly, two side panel assemblies and 5-8 shelves. Adder units include one beaded front post, two angle back posts, one back panel assembly, one side assembly and 5-8 shelves.

DURATECH™

NO CROSS BRACES

PASS-THRU STEEL SHELVING

QUICKSHIP

Heavy-Duty Industrial Grade Steel Shelving

DuraTech, Hallowell's newest line of pass-thru steel shelving, does not require cross braces, allowing access from all sides while providing the maximum strength, durability and stability needed to handle most industrial applications. DuraTech offers versatility and durability for today's modern facilities.

Our complete line of shelving is designed and engineered to the highest standards.

FEATURES

- Access from all 4 sides.
- Top and bottom firmly attached with steel-grip nuts for superior strength
- Available in 5, 7 and 8 shelf models.
- Four angle posts are used per section allowing units to be individually located, bolted side-by-side or bolted back-to-back.
- Each intermediate shelf uses four sturdy and compact clips.
- Clips key firmly into post slots to hold shelves securely in place.
- Provides independent positioning of intermediate shelves on 1-1/2" centers.
- Bottom shelf is positioned to prevent debris from collecting beneath unit.

**360° Access - No Cross Braces
Creates a more efficient storage system!**

Our Unique Grip Nut Design Creates A Very Strong And Rigid Structure

UL GREENGUARD GOLD CERTIFIED

QUICKSHIP

Top and bottom shelves attach with bolts at each corner providing a strong and rigid structure

Bottom shelf is positioned to prevent debris from collecting beneath unit

Top and bottom shelves are triple flanged at all four sides and bolted to angle posts at all four corners for maximum rigidity, durability and stability.

Angle posts are roll formed into a unique angle shape for maximum strength. Leg is punched on 1-1/2" centers to allow independent intermediate shelf adjustment

Intermediate shelves have a tubular flange at the front and rear, and exclusive triple bend sides for added strength.

Compression Shelf Clip for intermediate shelves

Fully Adjustable Intermediate Shelves with fixed top and bottom for a strong unit That DOES NOT require CROSS Braces

All Units Include: Four angle posts, two DuraTech bolt-in shelves to be used at unit top and bottom and intermediate adjustable shelves with shelf clips applicable to unit ordered. All DuraTech shelving units are free standing and can be joined end-to-end or back-to-back.

BOLTLESS STEEL SHELVING

Boltless shelving is designed to maximize storage space and minimize installation set-up time.

All components are engineered to attach snugly to one another without the use of loose fasteners. Pre-attached rivets to all left-to-right and front-to-back beams align with keyhole slots in the vertical posts. Once tapped into place the units are tightly assembled providing maximum strength.

Standard units consist of vertical angle posts, double rivet angle beams at the top and bottom perimeter, and single rivet angle beams running left-to-right only at the intermediate levels. Shelves are of standard 5/8" particle board, EZ-Deck steel or wire decking and simply drop into place. Shelving strength can be increased by upgrading to heavy duty beams and posts, see page 67

Double Rivet unit with 5 levels

The versatility of our Rivetwell boltless shelving system allows you to mix and match components to meet your unique application. From standard storage applications, record storage to automotive tire racks, Rivetwell boltless shelving is your storage solution.

MADE IN THE USA

BOLTLESS STEEL SHELVING

1 Angle Post 2 T-Post

3 Single Rivet Shelf Beam

4 Double Rivet Angle Beam

5 Double Rivet Channel Beam

6 Center Support

7 Double Rivet Z-Beam (Standard Duty)

8 Double Rivet Z-Beam (Heavy Duty)

9 Z-Beam Center Support

1 ANGLE POST (STANDARD DUTY): 1-1/2" x 1-1/2" x 14 gauge cold rolled steel corner post uprights. Perfect for standard load situations.

ANGLE POST (HEAVY DUTY): Shall be 1-7/8" x 1-7/8" x 14 gauge cold rolled steel uprights. The choice when heavy duty shelving is required. Perfect for multilevel installations.

2 T-POST (STANDARD DUTY): 3" x 1-7/8" x 14 gauge cold rolled steel intermediate uprights.

T-POST (HEAVY DUTY): 3-3/4" x 1-7/8" x 14 gauge cold rolled steel intermediate uprights.

3 SINGLE RIVET SHELF BEAM (STANDARD DUTY): This 14 gauge low profile standard intermediate level shelf beam is perfect when maximum clear opening is required between shelf levels.

SINGLE RIVET SHELF BEAM (HEAVY DUTY): An 11 gauge heavy duty version of our low profile intermediate shelf beam allowing maximum clear opening between shelf levels.

4 DOUBLE RIVET ANGLE BEAM (STANDARD DUTY): This 16 gauge shelf beam is essential for stability of standard units; therefore, is used on all four sides at the top and bottom levels. Can also be used front and back or on all four sides of intermediate levels to increase unit stability and load capacity.

DOUBLE RIVET ANGLE BEAM (HEAVY DUTY): An upgrade to our standard duty double rivet angle beams, our heavy duty double rivet angle beams provide additional unit rigidity and even higher shelf capacity.

5 DOUBLE RIVET CHANNEL BEAM: Maximized left-to-right shelf capacity is achieved using our 14 gauge double rivet channel beams in lieu of double rivet angle beams. These beams cannot be used at the bottom level.

6 CENTER SUPPORT: Used to provide additional shelf support front-to-back by bolting between double rivet beams at prepunched locations. Ideal for wider spans.

7 DOUBLE RIVET Z-BEAM (STANDARD DUTY): For 12" thru 60" beams. Used in place of double rivet angle beams to add 1" additional clearance between shelf levels. Allows particle board decking to sit flush with beam. Protects decking edges. When used at bottom level of single rivet units, shelf clearance is increased by 1" at lower level. Standard Z beams are 14 gauge.

8 DOUBLE RIVET Z-BEAM (HEAVY DUTY): For 69" and 72" beams. Used in place of double rivet angle beams to add 1" additional clearance between shelf levels. Allows particle board decking to sit flush with beam. Protects decking edges. Heavy-Duty Z beams are 14 gauge.

9 CENTER SUPPORT FOR Z-BEAM: Used with Z-Beams for front to back decking support. Fabricated of 11 gauge cold rolled steel.

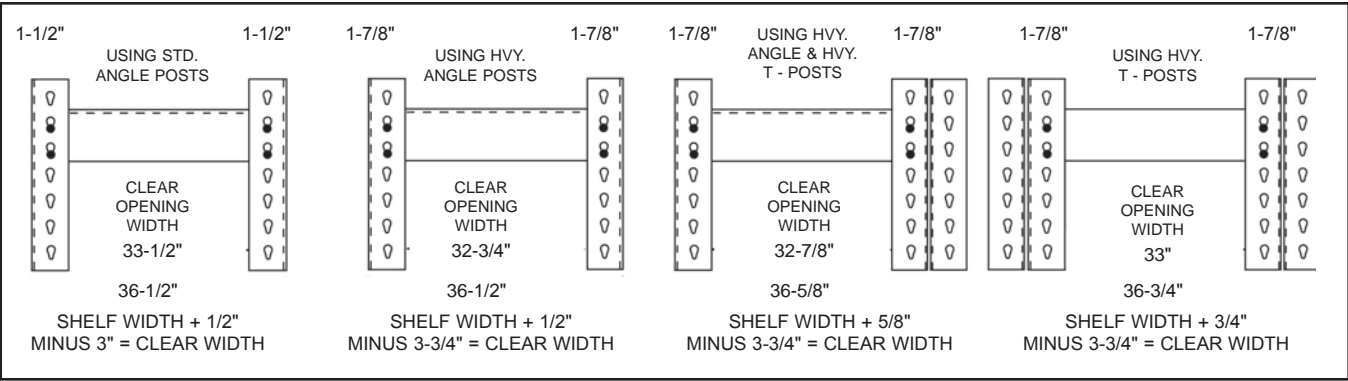

UNIT GROWTH CHART

When designing a shelving layout, unit growth must be considered. To determine the overall dimension of a continuous row of shelving employing T-Posts or Angle Posts with tie plates, refer to the table below.

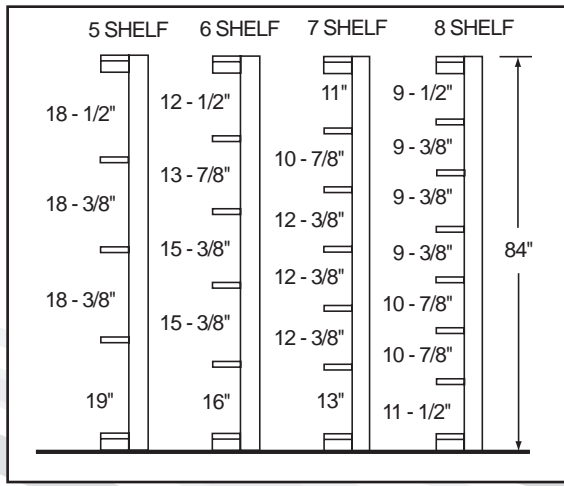

UNIT CLEAR WIDTH

Examples below are based on 36" wide shelf.

VERTICAL SHELF CLEARANCE FOR SINGLE RIVET UNITS

This chart depicts shelf clearances for typical rivetwell shelving units with 1-1/2" vertical shelf adjustment

VERTICAL SHELF CLEARANCE FOR DOUBLE RIVET UNITS

HWD6036	60" x 36"	6	455
HWD6048	60" x 48"	6	300

All wire decks are powder coated gray.

All sizes measure 1/8" short of nominal dimension in both directions.

NOTE: The above load chart refers to the deck materials only. Particle board decking is 5/8" industrial grade type 1-M-2.

EZ-Deck steel decking is 22 gauge galvanized sheet steel fabricated in 6" deep channel planks (models listed above include multiple planks to meet unit depth). 15" deep Ez-Deck will be shipped in two (2) 7 1/2" deep planks. The allowable shelf load capacity may be reduced due to allowable post and / or beam capacities. Specific deflection limits may also reduce the shelf load capacity.

NOTE: EZ-Deck must be center supported on units 48" wide and wider. EZ-Deck steel decking can NOT be used on single rivet units.

Capacities are based on evenly distributed loads and include a 1.65 safety factor.

COMMERCIAL KD CABINETS

**400
SERIES**

2 YEAR WARRANTY **KD KNOCK DOWN ASSEMBLY**

Functional • Durable • Adaptable

CONFIGURATIONS:

- **Storage** includes 4 adjustable shelves
- **Wardrobe** includes 1 shelf and coat rod
- **Combination** includes 1 full width shelf, 3 half width shelves, and a half width coat rod

24" Deep Storage Cabinets are available in stationary and mobile versions.

DOOR OPTIONS:

- **Solid**
- **Safety-View** (includes polycarbonate panels in door)

GENERAL SPECIFICATIONS

- All components precision engineered with no bolt heads showing on front and side panels
- Body and shelves fabricated from 22 gauge steel
- Shelves easily adjust up or down in 2" increments. Triple flanged shelf front for added strength (capacity up to 200 lbs)
- Reinforced doors swing a full 180°
- 22 gauge steel Doors are factory-hung in 16 gauge frames ensuring proper performance
- 16 gauge continuous hinges
- Corner foot gussets provide added rigidity and stability (replaced by mounting plates on mobile units)
- Positive three-point locking (top, center and bottom) for secure locking
- Plated locking handle has built-in cylinder key lock (keys included)
- Mobile units include four heavy-duty locking swivel casters

GENERAL SPECIFICATIONS

CLASSIC SERIES CABINETS are fabricated from prime grade cold rolled sheet steel.

GALVANITE SERIES CABINETS are fabricated from galvanized sheet steel which has a zinc-iron alloy coating that is applied at the mill providing protection against high-humidity and moist environments. This coating also prevents corrosion from spreading when the paint and/or coating is scratched away.

HEAVY-DUTY CABINETS are 16 gauge with 16 gauge shelves

EXTRA HEAVY-DUTY CABINETS are 14 gauge with 14 gauge shelves

SUPER-DUTY CABINETS are 12 gauge with 14 gauge shelves

SAFETY-VIEW® SERIES CABINETS incorporate polycarbonate panels in both doors of our extra heavy-duty 14 gauge Classic Series cabinets allowing contents to be visible without compromising security.

VENTILATED SERIES CABINETS are fabricated to the same rugged standards as our extra heavy-duty 14 gauge Classic Series cabinets with the added benefit of being fully ventilated with diamond perforated doors and sides and a 13 gauge flattened expanded metal back.

CLASSIC AND GALVANITE™ SERIES ALL-WELDED CABINETS

DURATOUGH™

All the rugged standard features of our popular Classic Series DuraTough cabinets with the added strength and security of 12 gauge sides and doors.

18-gauge full-height door stiffener provides maximum rigidity to both doors

Heavy-Duty 3/16" thick steel handle with padlock hasp

1/8" thick latch and 3/8" diameter lock rods insure maximum security

Safety-View Cabinet
14 gauge Classic

Ventilated Cabinet
14 gauge Classic

STANDARD FEATURES FOR ALL DURATOUGH™ CLASSIC AND GALVANITE™ SERIES CABINETS

- All-welded construction
- Double door design
- Solid doors are reinforced with an 18 gauge full-height door stiffener providing a rigid torque-free door.
- 3-point turn handle locking using 3/8" diameter locking rods operated by a 3/16" gauge steel handle. Handle is painted to match cabinet.
- Heavy-duty 13 gauge 7-knuckle 3-1/2" butt hinges welded to door and securely riveted to frame.
- Solid sides are formed to be integral with vertical door frame.
- Top is formed to be integral with horizontal top door frame.
- Bottom is formed to be integral with horizontal bottom door frame and includes double return bends at all four sides maximizing unit rigidity.

- Back is welded to cabinet top, bottom and sides
- Shelves are formed to provide maximum capacity and are adjustable on 3" centers. Shelves bolt to shelf support channels which are welded to sides.
- 78" high storage cabinets include 4-adjustable shelves
- 60" high storage cabinets include 3-adjustable shelves
- 42" high storage cabinets include 2-adjustable shelves
- 78" high combination cabinets include one full-width upper shelf, a center partition, 3 partial-width shelves and one partial-width coat rod
- Optional leg kits are available and can be bolted on to all DuraTough cabinets.
- Color: 738 Charcoal

LOCKER PREMIUM FINISH OPTIONS (additional charges apply)

HAMMERTONE FINISHES

Specially formulated with a unique hammer texture that is tough, highly durable and provides long lasting protection.

Note: Patterns/colors of textures and metallics will vary due to their nature. No touch up available for hammertone finishes.

Upgrade available for all 24 standard colors

Upgrade available for all standard 24 colors

Our MedSafe™ antimicrobial finishes with Microban® are specially formulated to protect against bacteria, mold, yeast & mildew for up to 20 years! Very beneficial for educational, healthcare, food processing and other hygiene conscious environments.

Colors shown are an approximate printed representation of the actual color and will vary depending on light source. Actual color samples are available upon request.
List Industries reserves the right to modify its designs and/or make changes in specifications or colors without prior notice.
